LIBRARY CONSTRUCTION: RECYCLING CENTER & RTD LOT

As the new library approaches construction, the Town and associated partners have prepared the south side of the Wastewater Treatment Plant center (198 2nd Ave.), as the recycling center's new site, as the library will be located at the current RTD lot site. The town, together with Boulder County plans to have the recycling center relocated by Mid- September. The library's construction is anticipated to begin in October.

In late September, the RTD lot will permanently close as a parking lot. Please plan accordingly; vehicles parked in the lot after September 21 are subject to towing. Additionally, there is parking along US-36 (eastbound) between Railroad Ave and Park Ave. The Kurt Carlson Skatepark will also be removed around this time, as the building contractors mobilize for library construction. A new skatepark is currently scheduled to be built in Bohn Park, as part of Phase II of the Recovery Project.
