

## PERMISSION FOR WATERSHED PROTECTION WORK

The undersigned landowners hereby grant permission to the Town of Lyons and Naranjo Construction Design/Build Team, and/or their agents, to enter upon our land for the purpose of evaluating and installing mitigation measures resulting from the 2013 Flood at any reasonable time within a period of 365 days from the date of signing.

This permission includes the right to install needed measures including stream bank stabilization and reconstruction, stream channel stabilization and restoration, hazard tree felling, debris removal, and watershed protection work necessitated by the 2013 Flood.

This permission also includes the right of ingress and egress on the land for the purpose of maintaining the improvements for the period of one year from the date of completion. No work will be performed without the landowner's consent. Maintenance work will be coordinated with the landowner prior to completion.
